#### Opportunity

Central Group is recognised as one of the UK's most successful Electro-Mechanical service providers both in the repair and maintenance industry for Pumps, Motors and Gearboxes and their associated controls.

Central Group has been established for over 50 years and operates in Knowsley, North West, meaning we are well placed to service the entire UK.

Due to on-going success, an outstanding opportunity has become available for a Centre Lathe Turner to join our well-established and respected engineering organisation, with a growing and stable client base in the electrical / mechanical service industry, serving large manufacturing and utilities organisation across the UK.

#### Description

Reporting to the Machine Shop Team Leader, your role will be to participate in mechanical engineering, maintaining, repairing and creating equipment to minimize downtime and maximise operating effectiveness and efficiency for our customers.

The candidate will need to be flexible and ready to deal with different customer's challenges and problems which will change from day to day.

The candidate must be flexible as they may be required to work further across the UK or abroad, depending upon customer requirements and business needs, attend training and must hold a full UK driving license.

## **Roles & Responsibilities (Day to Day)**

Your routine duties may vary, but will be expected to:

- Use of all standard workshop machinery.
- Measuring and checking all mechanical parts associated with motors and pumps.
- Detailing and producing drawings to manufacture new parts.
- Carrying out repairs and manufacturing new parts.
- Reclaiming worn or damaged shaft areas using Metal Spray equipment.
- The use of high-speed machinery, including lathes and milling machines.
- The use of balancing equipment.
- Checking and calibration of various measuring equipment.
- Ensuring tools and equipment are correctly stored and maintained.
- Attendance and contribution to daily SQWASHE meetings in your department.

## **Additional Duties**

- Assisting with any other duties as and when required.
- Attending Customer site's as and when required.
- Attending relevant internal meetings as and when required.
- Attending training courses either internally or externally as and when required.
- Ensuring continuous improvement within the Machine Shop Department in line with the business objectives and SQWASHE.

## **Objectives**

- Working to Central Group procedures at all time, including safety.
- Ensuring a safe and clean work environment.

## **Abilities / Skills Required**

- Good understanding of the Electro-Mechanical Industry.
- Good communication skills.
- A positive outlook with good organisation skills and the ability to think ahead.

## **Qualifications And Experience**

### **Essential**

- Time served or have at least five years commercial industrial experience.
- Full UK Driving Licence.

### **Desireable**

- Experience of working within an Electro-Mechanical Industry.

If you would like to apply for the above role, please forward your CV to Steph Powell, HR Manager
