Opportunity

Central Group is recognised as one of the UK's most successful, family owned, Electro-Mechanical service providers both in the repair and maintenance industry for Pumps, Motors, Alternators, Fans and Gearboxes and their associated controls.

Central Group has been established for over 50 years and operates in Knowsley, Northwest, meaning we are well placed to service the entire UK.

Due to on-going success, two outstanding opportunities have become available for Mechanical Fitters to join our well-established and respected engineering organisation, with a growing and stable client base in the electrical / mechanical service industry, serving large manufacturing and utilities organisation across the UK.

Description

Reporting to your Team Leader, your role will be to work as part of a team both in our workshop and on customer sites. You must be able to dismantle and assemble a range of rotating equipment, specifically pumps. Occasionally working on customers sites around the UK but primarily within the Northwest of the UK, you will need to be flexible and ready to deal with different customer's challenges and problems which will change from day to day.

Applicants must be flexible as from time to time you may be required to stay overnight to fulfil customer requirements, attend training and must hold a full UK driving license.

Roles & Responsibilities (Day to Day)

Your routine duties may vary, but will be expected to:

- Use of all standard workshop machinery.
- Accurate recording of information and observations on internal job cards.
- Dismantling and re-assembling of rotating machinery and equipment.
- Ensuring tools and equipment are correctly stored and maintained.

Additional Duties

- Assisting with any other duties as and when required.
- Attending Customer site's as and when required.
- Attending relevant internal meetings as and when required.
- Attending training courses either internally or externally as and when required.
- Ensuring continuous improvement within the Workshop in line with the business objectives.
- Participation in the Workshop On-Call Rota.

Objectives

- Always Working to Central Group procedures including safety.
- Ensuring a safe and clean work environment.

Abilities / Skills Required

- Good understanding of the Electro-Mechanical Industry.
- Good communication skills.

Qualifications And Experience

Essential

- Time served or have at least five years commercial industrial experience.
- Must have experience of rotating equipment, specifically pumps.
- Full UK Driving Licence.

Desireable

- Experience of Dynamic Balancing.
- Knowledge of testing rotating equipment, both electrically and mechanically.

Features and Benefits of working at Central Group

- Health and Wellbeing awareness training.
- Mental Health Support Packages.
- Excellent welfare facilities.
- Free eye tests.
- Full workwear and branded clothing provided.
- Emergency paid leave package.
- Comprehensive job related training provided.
- Regular overtime opportunities.
- Free, secure, off street parking.
- Mersey-Flow pass for both tunnels and Runcorn bridge.
- Excellent motorway connectivity.
- Warrington: 29 minutes.
- Widnes: 19 minutes.
- St Helens: 19 minutes.
- Birkenhead/Wallasey: 30 minutes.
- Urmston/Manchester: 45 minutes.
- Wigan: 35 minutes.

If you would like to apply for the above role, please forward your CV to Steph Powell, HR Manager
